Biofaktor Medical Devices

Including:
Suppositories and pessaries medical devices manufactured by Biofaktor European Pharma Company.
BIOFAKTOR sp. z o.o. was established in the year 2000. In 2002 Biofaktor merged with Interbiowet – manufacturer of veterinary medicines since 1989. This merge resulted in the biggest – more than 100 items portfolio on the polish veterinary pharmaceutical market. Between 2012 and 2015 Biofaktor acquired several wholesalers of the veterinary pharmaceuticals and equipment in the north-eastern and south-eastern part of Poland.

Human pharmaceuticals and supplements division of contract manufacturing business has been developing successfully since 2006. In case of the human products Biofaktor manufactures and distributes exclusively under Clients’ own brands.

Biofaktor has two manufacturing plants located in Goźdów Wielkopolski – solid dosage forms and Skierniewice – liquid forms.

Both plants work in pharma GMP quality standards.
